

ConnectPay

Recurring Payments

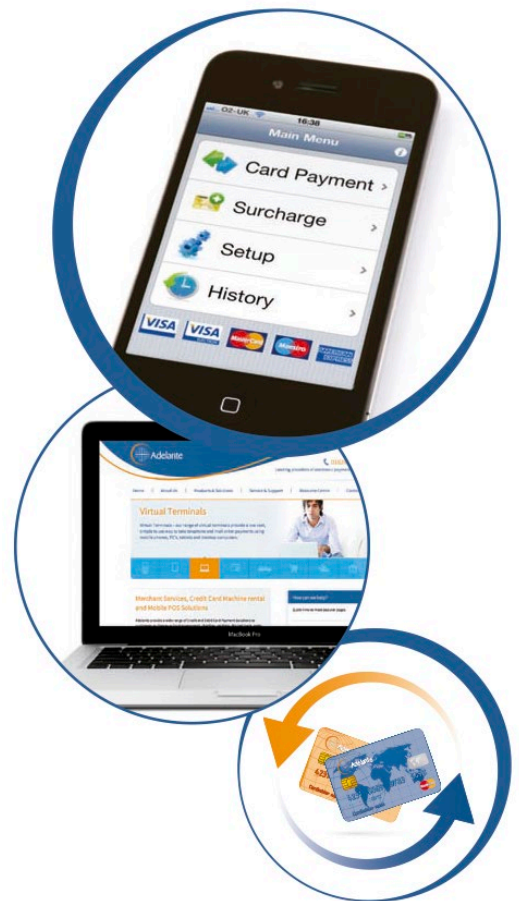

Saving time & money for your business

ConnectPay's Recurring Payments system provides a great way to collect regular or repeat payments from your customers without the need to run an expensive direct debit system. Instead regular payments can be taken from customers credit or debit cards based on a pre-agreed payment plan.

Ideal for debt collection, membership subscriptions or any other activity where a recurring payment is required. Customers will be informed of payments due by automated configurable emails and are then sent a receipt with transaction details once the payment has been processed.

The **ConnectPay Recurring Payments** system is delivered as an internet based service meaning there is no costly hardware to install or software to load and support.

- ✓ Ideal for regular recurring payments, such as account or debt collection, subscriptions, memberships
- ✓ PCI DSS Compliant
- ✓ No requirement to store card details
- ✓ Automated email receipts and transaction reports available
- ✓ Allows you to process multiple transactions in seconds without asking for your customers' card details each time
- ✓ Customers' payment information can be taken over the phone for processing at a later date
- ✓ In built process to allow customers to update expired cards
- ✓ Straight forward and simple to use
